INNOVATIONS

COUNTERVAIL*

Countervail is a patented carbon fiber layer that maximizes a player's energy, recovery and control by minimizing vibration without sacrificing performance and feel.

SPIN EFFECT*

Patented Spin Effect Technology is the first racket system that actually increases ball RPM without players changing their swing. The net seems lower and the court feels longer on all your shots.

POWER RIB TECHNOLOGY

Integrated racket throat geometry and grommet technology that enables the ball to explode off your racket. The enhanced geometry provides greater stability and power while the innovative yoke grommet creates more potential energy and ball dwell time on strings, resulting in a larger hotspot.

X2 ERGO

A customizable handle shape creates optimal personalized feel for the "modern" two-handed backhand. Patent-pending.

BRAIDED GRAPHITE* + BASALT

Braided Graphite + Basalt is an elastic and reactive material combination that improves the flex of a racket. This evolution of Wilson's BLX* technology increases the ball's contact with the strings to provide enhanced feel and greater control.

HIGH PERFORMANCE CARBON FIBER

Developed for aggressive swings, this premium modulus carbon graphite provides increased frame stiffness for explosive power.

TRIAD*

Three-piece racquet system where hoop and handle are separated with Iso-Zorb, providing the ultimate in comfort and soft feel.

POWER PROFILE FRAME GEOMETRY

This cutting-edge racket frame design produces the ultimate in power at a lighter weight.

BRAIDED GRAPHITE*

Braided Graphite provides a pure, solid and consistent feel that players have loved for decades. This strong construction also dampens vibration and enhances touch and control.

CUSHION FOAM

This handle technology softens impact for optimal dampening and shock absorption to provide smooth comfort.

PARALLEL DRILLING

Provides a consistent, more forgiving string bed response while dramatically increasing the sweet spot.

AMPLIFEEL™ 360

Amplifeel 360 features a full Basalt expanded handle for enhanced feel with increased racket power and reduced weight.

Spin Effect* Technology is a racket and string pattern innovation that increases ball spin. Pros often customize the racket they use. Racket specifications on endorsed consumer models may vary from the models used by Pros for match-play.

ULTRA®

The Ultra redefines power and versatility. All-new power technologies create shots that overwhelm opponents, while added Countervail technology maxes out a player's energy. The Ultra is made complete with a sleek, minimalistic design featuring next-level feel on the racket surface. Power to all the players.

PRO STAFF® NEW

Co-designed by Roger Federer and engineered for the next generation of tennis legends, the new Pro Staff continues to deliver supreme performance, feel and class. Inspired by a sleek all-new design, aspiring tennis players everywhere will hold a psychological edge on their competition - if they're bold enough to pick one up.

BURN® NEW

The Burn continues to generate power to blast shots from the baseline, but now with a new design that amps up performance and looks. Spin Effect Technology maximizes ball rotation without changing your swing, while a sharp aesthetic features engineered paint finishes and laser engraving. **Comes pre-strung with Sensation.**

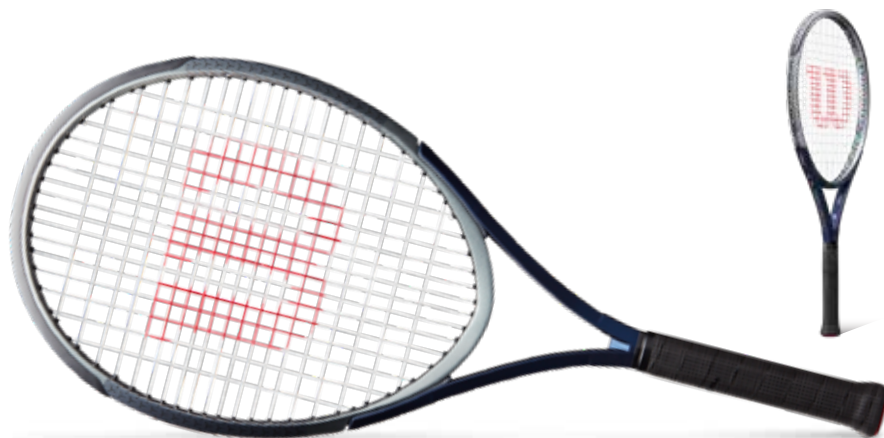

STOCK NUMBER	MODEL	HEADSIZE	UNSTRUNG WEIGHT	LENGTH	UNSTRUNG BALANCE	STRING PATTERN	CROSS SECTION	GRIP SIZES	RETAIL

XP 1

The XP 1 is the most powerful racket on the market, period. A fine-tuned and improved layout has generated even greater power, while a new string pattern allows consumers to more easily use softer multifilament string for even more comfortable power.

STOCK NUMBER	MODEL	HEADSIZE	UNSTRUNG WEIGHT	LENGTH	UNSTRUNG BALANCE	STRING PATTERN	CROSS SECTION	GRIP SIZES	RETAIL
WRT73821U	XP 1	110" / 710 cm ²	9.4 oz / 265 g	27.5" / 69.85 cm	35 cm / Even	16 x 18	27-30-27 mm DTB	0 - 3	\$259

TRIAD[®] XP 3

The Triad XP combines and evolves two of Wilson's advanced technologies by softening the edges of the Ultra XP's geometry for a more comfortable appearance, improving the layout for greater power, and optimizing the Isozorb cushioning technology of Triad. In addition, the power and dampening have been fine-tuned for each model.

STOCK NUMBER	MODEL	HEADSIZE	UNSTRUNG WEIGHT	LENGTH	UNSTRUNG BALANCE	STRING PATTERN	CROSS SECTION	GRIP SIZES	RETAIL

INNOVATIONS

AMPLIFEEL™

Adds increased upper support for feel, control and explosive lateral acceleration.

3D-FS™

Provides unparalleled support for increased response time and supports explosive acceleration with controlled deceleration.

PRO TORQUE CHASSIS (PTC)

Arch technology to provides torsion control and stability for explosive acceleration.

SKINGUARD™

Upper protection for durability. Forefoot and lateral reinforcement to enhance support during lateral movements and push-offs.

2D-FS*

Strategically placed in the forefoot of the shoe provide superior support, enhanced responsiveness, lateral stability and control.

PRO TORQUE CHASSIS (PTC) LIGHT

Arch technology is built for speed by providing ultimate stability and flexibility.

SENSIFEEL™

A minimally layered upper upgrades comfort while maintaining superior support.

ENDOFIT*

Full inner sock construction provides enhanced comfort, stability, and an overall intuitive fit experience.

4D SUPPORT CHASSIS

An asymmetrical heel-to-toe chassis that delivers enhanced stability and limits supination / torsion to help control pivot movements while setting up for powerful strokes.

sensiFEEL2.0

SENSIFEEL™ 2.0

A minimally layered upper with an engineered mesh that provides enhanced breathability, feel, support, comfort, and a homogeneous fit.

R-dst+

R-DST+™

Best combination of cushioning and rebound for more dynamic performance.

R-dst

R-DST™

Augments cushioning and rebound for comfort and responsiveness.

WOMEN'S SPECIFIC SUPPORT (WSS)

Assymetrical heel counter specifically for women provides a higher level of stability, arch support and comfort.

DURALAST™

Exclusive high-density, consummately durable rubber compound provides super abrasion resistance and maximum traction on all surfaces.

QUICKLACE

Minimalistic and strong lace for one-pull tightening. Easy-on, easy-off. Available on select Junior models.

SPEED: Designed with superior responsiveness and agility in mind, Wilson's speed footwear personifies dynamic movement through flexible, lightweight support that spurs explosive acceleration and rebound.
